

ASM Fellows 2015

In 1969, ASM established the Fellow of the Society honor to provide recognition to members for their distinguished contributions to materials science and engineering and to develop a broadly based forum of technical and professional leaders to serve as advisors to the society. Members are nominated by their colleagues each year and few are chosen. Additional Fellows may be elected to this distinguished body in subsequent years. The solicited guidance, which the Fellows will provide, enhances the capability of ASM as a technical community of materials science and engineering in the years ahead. Awards were presented at ASM's annual Awards Dinner, Tuesday, October 6th, in Columbus, OH during Materials Science & Technology 2015 (MS&T'15).

Mr. Victor K. Champagne, FASM
Leader of ARL Center for Cold Spray
US Army Research Laboratory, Aberdeen MD

"Serving as the International Champion of Cold Spray Technology through exemplary research, development, qualification and persistent dedication toward the transition and implementation throughout all sectors of industry and the DoD."

ASM International was founded in 1913 as the American Society for Metals. Today, ASM is the world's largest association of metals-centric materials scientists and engineers with over 30,000 members worldwide. ASM is dedicated to informing, educating and connecting the materials community to solve problems and stimulate innovation around the world. By acting as a catalyst for vigorous professional activities, ASM International fuels a passionate sense of community, energizes members to aspire to new levels of success and satisfaction, advances the development of materials and ultimately elevates the importance of our professions.
